Netrack patch knife for LSA Krone with lock function

Product price:

PLN12.99 tax included

Product codes:

Reference: 102-03
EAN13: 5908268772040
UPC: -

Product features:

Height [mm]: 184
Width [mm]: 34
Depth [mm]: 26
Weight [kg]: 0.054
Height of the packed product [mm]: 196
Width of the packed product [mm]: 52
Depth of the packed product [mm]: 35
Weight of the packed product [kg]: 0.077
Color: gray
LSA IDC connector type: Krone and Dual

Product short description:

Tool for professional installation of cables in LSA IDC Krone or Dual IDC connectors. Pressure sensor.

Product description:

Professional **tool for installing wires in LSA IDC connectors** . LSA IDC connectors are produced in several types: Krone, IDC 110, Dual IDC (universal for Krone and IDC110) and Simens. These types of connectors are adapted to install wires made as solid wire (installing stranded wires may not provide the appropriate parameters). The knife allows you to install wires in Krone and Dual IDC connectors. IDC 110 and Siemens connectors are now rare. **Patch knife** additionally has 2 extendable tools used for laying cables during installation (they are extended by pressing one of the "T" buttons on both sides of the housing). During crimping, the wires are automatically cut off, while the sensor signals the correct pressing force with a click. It is possible to switch off the sensor and cutting functions by moving the lock at the knife or turning the switch in the middle of the tool.

Patch knife - the most important features

- used to install wires in Krone and Dual IDCAC connectors
- automatic wire cutting
- pressure sensor
- additional tools

Technical parameters

- height [mm] *184*
- width [mm] *33*
- depth [mm] *25*
- weight [kg] *0.054*

Packaging

- packaging dimensions: 196/52/35mm
- weight in the package: 0.077 kg

Contents of the package

- *complete multi-purpose knife*
- *protective packaging*
