different standard.

Product description:

Rack cable organizers - product description

Organizers for rack cabinets are most often used when we want to connect a switch-type active device with a patch panel. Then we use a large number of wires Organizers are necessary for the correct arrangement of patchcords. For this purpose, we use organizers designed for 10 or 19" Rack cabinets. We install a different type of organizers in any cabinets and housings in places where cables are run. **Netrack organizers** have a stable structure and are made of high-quality materials. Their construction ensures comfortable use.
