Product description:

Rack shelf - product description

Rack cabinet shelves are most often used when we want to install devices not adapted to be mounted on 10 or 19" Rack rails. Most often these are: computers/servers, converters, recorders or analyzers. Devices can be placed on shelves, fixed with bands or screws using perforated holes. **Netrack shelves** have a stable structure and are made of thick, durable sheet metal. This guarantees durability even under heavy loads.
