Product short description:

Product description:

Wall mount 19" 2U 330mm, Grey

RACK bracket adapted for mounting directly to the wall.

Designed in the 19" standard. It facilitates the installation of devices to which access does not have to be secured with server cabinets.

In addition, each handle has holes from the top and bottom in the 19" standard for attaching additional smaller devices.

The holes in the back allow you to hang it with wall plugs.(not included)

It is also possible to mount vertically to the wall.

The folded handle takes up little space, an ideal transport and storage solution.

The applied solution enables quick and easy assembly. The set includes a set of four screws locking the M5 handle arms, and two sets of M6 screws with baskets and washers.
