Product short description:**Product description:**

Modular patch panel 19" 1U 24 ports, retractable, gray

Our product is a universal patch panel used in the construction of ICT networks . It is adapted for installation in RACK server cabinets in the 19" standard. The patch panel has 24 ports adapted to the installation of RJ45 keystone modules in various configurations - Cat. 5E, Cat. 6, Cat. 6A . The sliding patch panel is adapted to the installation of both cables shielded and unshielded. The set includes a grounding cable , mounted on a supporting bar.

The NETRACK universal patch panel is equipped with 24 empty ports. The ports are designed for mounting RJ45 keystone modules in various configurations. It is integral with Cat sockets. 5E, Cat. 6, Cat. 6A .

The patch panel is equipped with a supporting strip made of galvanized sheet, which allows for the attachment of cables . This, in turn, ensures the stabilization of the cabling and the possibility of organizing it. On the left and right side of the strip there is a place for mounting the grounding cable.

The patch panel can be easily slid out, providing convenient access to cabling. In addition, the metal cover is an excellent, additional protection against mechanical damage.
