# Netrack Shelf 19" 1U/550mm, pull-out, grey

## Product price:

**PLN137.60 tax included**

## Product codes:

Reference: 119-100-550-121

EAN13: 5908268776543

UPC: -

## Product features:

Basic dimensions: 19 "/ 1U

Height [mm]: 45

Width [mm]: 484

Depth [mm]:

Weight [kg]: 4.9

Width of the packed product [mm]: 410

Standard Rack: 19 "

Height U: 1U

Shelf type: retractable - front / rear mounting 4 points

Sheet thickness:

Fixing points: 4

Amount of rack screws needed: 4

Color: gray

## Product short description:

---

**Shelves for Rack cabinets** - basic equipment for every Rack cabinet . Allows you to mount any equipment and equipment in a cabinet equipped with 10 or 19" Rack rails

**Product description:**

Rack shelf - product description

**Rack cabinet shelves** are most often used when we want to install devices not adapted to be mounted on 10 or 19" Rack rails. Most often these are: computers/servers, converters, recorders or analyzers. Devices can be placed on shelves, fixed with bands or screws using perforated holes. **Netrack shelves** have a stable structure and are made of thick, durable sheet metal. This guarantees durability even under heavy loads. Pull-out shelves are used when we want the devices placed on them to be pulled out for better access. This simplifies installation and administration. It is also possible to mount the shelf in reverse - it can then serve as a narrow drawer for devices or documents.

Sliding shelf , adapted to the installation of devices without RACK mounting brackets . Designed for mounting in 19" ICT cabinets.

Possibility of mounting in rails with a spacing of 550 to 900 mm .

The adjustment of the mounting spacing is fully smooth and does not require additional work apart from extending it to the desired length.

High-quality steel from which the shelf is made guarantees durability, and the possibility of four-point mounting - stability.

Metal guides ensure lightness and comfort of use. Providing full extension of the shelf, they allow easy access to devices that require regular configuration.
