Product short description:

Product description:

Pole mount for cameras - galvanized

Universal holder for mounting one or two cameras on masts/poles.

The holder is distinguished by a solid construction of high-quality materials - which guarantees safe and durable assembly of devices.

Easy assembly!

Possibility of mounting on poles with a diameter of 30 to 105 mm, using the included threaded bolts, washers and nuts.

Safe delivery and aesthetic product packaging!

We pay special attention to solid, safe and aesthetic packaging of our products. That is why, in order to minimize the risk of damage to the shipment during transport, each of our products is carefully packed in a dedicated box made of strong, three-layer cardboard.

To ensure high quality of services and safe, timely delivery of items purchased from us, we cooperate only with a proven courier company.
